Cheryl Daugvila

Cheryl Daugvila has been a leader in the remodeling industry for over 34 years. The combination of a dynamic cabinet designer and cabinetmaker was destined for a long future. Marius and Cheryl Daugvila have a life dedicated to great design that pursues the balance, function and beauty necessary to create the perfect kitchen. Both have their degrees in Industrial Design from University of Illinois where they first met 30 years ago. European heritage rich in artisan culture also sets the foundation for their functionally healthy design philosophy. Their design group encompasses the future in design trends and cabinet choices for renewable, maintainable, and cost effective material selections for very discerning clients. Combined with award winning Wood-Mode and Brookhaven cabinetry, their staff of experienced designers is inspired to create dream kitchens.

A balanced palette and minimal embellishment result in a sophisticated combination of dark and light in this contemporary inviting environment. The island includes bar-height seating, generous cabinetry, and custom wine storage. A built-in breakfast bar with ribbed glass doors and a wall of windows offering a bird's eye view complete the intimate dining area.

Products Used:

Wood-Mode Cabinetry, Sonoma door, maple with Champagne finish and cherry with Dark Lager and Olive ash burl; Sub-Zero refrigerator; Wolf range and microwave; Best By Broan ventilation; Miele dishwasher; quartz countertops; oak floor.
